

Welcome to YMCA Camp Cosby's Outdoor Classroom

This program planning guide has been created to assist you in planning a successful and enjoyable resident outdoor environmental education experience at YMCA Camp Cosby. Please read this packet thoroughly as your first step in the planning process.

Any of the materials in this packet may be duplicated to insure that your students, teachers, and parents are well informed. You may also want to put together an information packet just for your school. If you need ideas ask about them during the planning process.

Communication is the key to a successful trip. Whether this is your first trip to YMCA Camp Cosby or your tenth, your trip will be much more successful with a commitment to communication and planning ahead. With that in mind, please begin your planning at least two months ahead of time. Remember, YMCA Camp Cosby staff is available for parent/student presentations or any other consultations that may assist you.

The Cosby Staff is looking forward to creating a valuable outdoor educational learning experience for you and your students. Please call if you have any questions.

Together in Education,

Michael Morriss
